

CHAPTER 16-9 GRADING AND DRAINAGE

16-9-1

GRADING PLAN

The final grading plan for the subdivision shall be submitted to and approved by the City Engineer. The grading plan shall, as much as possible, be laid out to conform to the natural contour of the land. After the final grading plan has been approved, a grading permit will be issued by the City at the request of the developer.

Legislative History:
Ordinance #503, 4/23/13

Authority:
SDCL § Ch. 9

16-9-2

DRAINAGE PLAN

The final drainage plan for the subdivision shall conform to the city-approved master drainage plan. If a master drainage plan is not available for a proposed subdivision location and if the City deems it necessary, one will be conducted by the City on the drainage basin of which the proposed subdivision is part. No subdivision plans will be approved prior to completion and acceptance of the drainage plan.

Legislative History:
Ordinance #503, 4/23/13

Authority:
SDCL § Ch. 9

16-9-3

DESIGN STANDARDS

All drainage facilities including storm sewers, on-site detention, drainageways, detention ponds, and drainage channels shall be designed in compliance with the currently approved Engineering Design Standards and are subject to approval of the City Engineer.

Legislative History:
Ordinance #503, 4/23/13

Authority:
SDCL § Ch. 9
